

Gamified Training for remote team management

- Effective remote leadership: team management from anywhere -

Lead your team to success through communication, coordination and a shared vision.

Gamification Storyline:

In this serious business game training, you will take on the role of Yulia, an outstanding aerospace project manager. Yulia is hired by MASA to lead a remote team to repair the International Space Station's robotic arm, which was damaged after an accident.

The space station currently houses astronaut Antoine, as well as several research samples that could be crucial to curing various deadly diseases.

Only if the team works together efficiently can the robotic arm be repaired and Antoine and the samples will find their way back to Earth in time.

At Yulia's side, master the management of the remote team and lead the group to success. Can you complete the mission?

Methodology

The developed game-based learning method is a combination of **3 elements**:

- ✓ **High quality content** equivalent to a two-day on-site course, with a strong practical focus that is useful and directly applicable to the work
- ✓ The **use of gamification techniques** in terms of story telling, ranking motivation, scoring, different learning and game levels, and incentives through recognition and awards. This makes the training a motivating and exciting learning experience. This directly promotes the intrinsic motivation to learn on your and your employees' side.
- ✓ **Practical exercises** that allow you as a participant to practice directly in a safe and motivating environment and to implement the practical knowledge. You will **receive detailed feedback** in the form of individual learning loops.

How do you make it work? What are the IT requirements?

1. **The only thing you need** to use this business game training is an end device with internet access.
2. You can **access our performance-optimised business game platform** at any time, from anywhere in the world via your individual user profile or integrate the business game training into your LMS (Cornerstone, Moodle, SAP Success Factors, etc.).
3. You will receive regular reports on the progress of your participants and training groups. This allows you to always keep an overview and motivate your teams in a goal-oriented manner.
